

PHYSICS- USPEKHI

English edition of *Uspekhi Fizicheskikh Nauk*
October 1995 Volume 165 Number 10

Contents

REVIEWS OF TOPICAL PROBLEMS

- | | |
|---|------|
| The theory of spatiotemporal evolution
of nonequilibrium thermodynamic systems
A I Olemskoĭ, I V Kopyk | 1061 |
| Thermal self-action of acoustic wave packets in a liquid
F V Bunkin, G A Lyakhov, K F Shipilov | 1099 |
| Dynamics of high-energy charged particles in straight
and bent crystals
A I Akhiezer, N F Shul'ga, V I Truten', A A Grinenko,
V V Syshchenko | 1119 |
| Polarisation physiological optics
N D Zhevandrov | 1147 |
| Physics news on the Internet (based on electronic preprints) | 1167 |

CONFERENCES AND SYMPOSIA

- | | |
|---|------|
| Scientific session of the Division of General Physics and Astronomy
of the Russian Academy of Sciences (22 February 1995):
Magnetoelectric effects and the Stark effect in antiferromagnetic
Gd₂CuO₄
A I Smirnov, I N Khlyustikov | 1169 |
| Short spin waves of exchange nature in ferrite films:
excitation, propagation, and potential applications
P E Zil'berman, A G Temiryazev, M P Tikhomirova | 1173 |
